

Thoughtfully Yours.

thought-ful (thôtfł) adj

1. Engrossed in thought; contemplative. 2. Characterized by careful thought. 3. Having or showing heed for the well-being or happiness of others and a propensity for anticipating their needs or wishes.

In 1990, OXO set out to make everyday living easier. We tackled this audacious goal through humble products like peelers, ice cream scoops, can openers and whisks. As we have grown in both size and product offering, the OXO brand has become widely recognized as a prime example of how user-focused design in everyday products can translate into business success, influencing categories far distant from our own.

Recently, we interviewed some OXO users as a kind of performance review. Over and over again, we heard “there’s a lot of thought that goes into how somebody will use an OXO tool,” “it’s always interesting to see the OXO version of something,” and “OXO...made all the difference.” Perhaps the best illustration of a job well done was that every single user we spoke to said OXO made “life a little easier.”

How do we do it?

We study people – lefties and righties, male and female, young and old – interacting with products and we identify ways to make these products better. Our “question everything” process and relentless attention to detail uncover the best solutions for slicing, peeling, whisking, baking, stirring, washing, scrubbing, dusting, storing and organizing.

We invite you to read on to experience the ways OXO makes everyday living easier.

For over 25 years, OXO's mission has been to provide innovative consumer products that make everyday living easier.

How do we do it? We study people — lefties and righties, male and female, young and old — interacting with products and we identify opportunities for meaningful improvement. Our “question everything” process and relentless attention to detail allow us to design products that help consumers make short work of everyday tasks.

We've applied the same philosophy and attention to detail to OXO On, our new line of intelligent kitchen appliances. Through intuitive interfaces, innovative digital controls and backlit LED displays, our On appliances give you the simplicity, functionality and thoughtfulness you've come to expect from OXO...

...all with the touch of a button.

Barista Brain

12-CUP COFFEE BREWING SYSTEM

TIME

Microprocessor-controlled brew cycle makes 4-12 cups of perfect coffee

TEMPERATURE

Water temperature is maintained precisely throughout the entire brew cycle

VOLUME

Integrated scale and pump regulate water volume for optimal flavor extraction

The art of perfect coffee, down to an exact science.

A delicious cup of coffee is art and science combined: the art of extracting rich flavors and aromas from coffee grounds, and the science of time and temperature colliding in just the right way, at just the right moment.

The OXO Barista Brain Coffee Brewing System heats water in the removable kettle up to the optimal temperature to help your favorite roast reach its full potential, and precisely maintains the temperature throughout the entire brewing process. Water is measured by an integrated scale and pumped to the brew basket in perfectly timed cycles, starting with a short cycle that allows coffee to bloom for full flavor extraction. The intelligent microprocessor monitors time, temperature and volume from start to finish, ensuring the precision of hand-crafted coffee with the ease of ordering at your favorite local coffee shop.

You choose the number of cups and we'll do the rest, providing a pot of perfection every time.

AND TEA, TOO!

Removable glass kettle heats water for tea and other hot beverages

PRECISE TEMPERATURE CONTROL

Water is heated and held at the perfect temperature for coffee (197.6-204.8°F) or your preferred temperature for tea (175-212°F)

INTELLIGENT MICROPROCESSOR

Barista Brain monitors all operations to achieve delicious results

INTUITIVE LED INTERFACE

The backlit screen and one-dial interface features coffee/tea cup selection, 24-hour programmable brew-start, freshness timer, and more

REMOVABLE WATER KETTLE

Easy-to-fill kettle heats water to brew coffee or to make tea and other hot beverages

INTEGRATED INNOVATIVE SCALE

Water volume is intelligently monitored for optimum coffee extraction and consistently perfect cups

PRECISION PUMP

Water is transported to brew basket in measured cycles, including a pre-soak cycle so grounds can bloom

RAINMAKER™ SHOWERHEAD

Water is evenly dispersed over coffee grounds for uniform saturation and full flavor extraction

BOROSILICATE GLASS CONSTRUCTION

Kettle is made of durable, BPA-free borosilicate glass for thermal shock protection and a pure, clean taste

LARGE BREW BASKET

Basket provides large surface area for even ground coffee saturation from 4 to 12 cups

VACUUM-INSULATED, CARAFE WITH BREW-THROUGH LID

Double-walled stainless steel carafe keeps your brew hot and fresh

INTERNAL MIXING TUBE

Coffee is blended thoroughly as it is brewed into the carafe so the last sip is as delicious as the first

SOFT, NON-SLIP HANDLES

Kettle and carafe provide comfortable, non-slip grips for controlled, easy pouring

Barista Brain

9-CUP COFFEE MAKER

TIME

Microprocessor-controlled brew cycle produces 2-9 cups perfect coffee

TEMPERATURE

Water temperature is maintained precisely throughout the entire brew cycle

VOLUME

Pump distributes water in timed cycles for optimal flavor extraction

This is one smart coffee maker.

A delicious cup of coffee is art and science combined; the art of extracting rich flavors and aromas from coffee grounds, and the science of time and temperature colliding in just the right way, at just the right moment.

CONICAL BURR COFFEE GRINDER WITH INTEGRATED SCALE

BUILT-IN SCALE

Intelligent, integrated digital scale ensures a precise volume of ground coffee every time

CONICAL BURR GRINDER

Stainless steel grinder protects flavor by creating a uniform grinds and minimizing heat

INTUITIVE DIGITAL CONTROLS

One-touch dial and LED interface provide total control over ground coarseness and volume

Perfect coffee, from the grounds up.

A truly perfect brew starts with ground coffee, but it takes the right grinder for coffee beans to reach their full potential.

The Barista Brain Grinder's intelligent, built-in scale precisely measures coffee using pre-set grams-to-cup ratios; if you want more control, you can use the gram setting to grind exactly the amount of coffee you want.

The high torque/low speed Grinder helps keep beans from overheating during even the longest grinding session, creates a uniform grind for optimal flavor extraction, and generates minimal static to reduce mess.

Whether you like strong or weak, espresso or drip, French press or pour over, our Coffee Grinder can help you get the grind you need to make your perfect cup.

STAINLESS STEEL CONICAL BURRS

Durable 40mm burrs create a uniform grind for optimal brewing

BUILT-IN DIGITAL SCALE

Grinder's intelligent, integrated scale measures output by weight instead of time, ensuring the precise amount of ground coffee every time

INTUITIVE LED INTERFACE

Grind based on number of cups you want to make or customize your brew by grinding in grams

POWERFUL DC MOTOR

High torque/low speed (400 rpm) grinder will not overheat beans, protecting flavor, and generates minimal static to reduce mess

GRIND SELECT FEATURE

Grinder locks into a wide range of settings from fine for espresso to coarse for French press coffee

STRENGTH ADJUSTER

Measurements can be fine-tuned to make a stronger or weaker brew to suit your preference

UV-BLOCKING TINT

Hopper keeps harmful UV rays away from delicate coffee beans to keep them fresh longer

PROTECTION

Built-in overheating protection and automatic no-bean detector protect the motor to ensure a long life

MESS-FREE DESIGN

Hopper features a "trap door" to hold beans in when removed; grounds container features a narrow top opening for less mess and easy dispensing

LARGE CAPACITY

Hopper holds 16 oz of coffee beans; grounds container accommodates enough ground coffee to brew 12 cups

Clarity

CORDLESS GLASS ELECTRIC KETTLE

CRYSTAL-CLEAR GLASS

Durable borosilicate glass provides thermal shock protection and a pure, clean taste

AUTOMATIC SAFETY SHUT-OFF

Illuminated LED power switch automatically turns off when water has reached a rolling boil

CORDLESS KETTLE

Kettle is cord-free for easy transport when removed from the 360° swivel base

A pot worth watching, pure and simple.

They say a watched pot never boils, but with stainless steel construction and crystal-clear borosilicate glass, it will be hard to look away. Water has an elegance to it when boiling, and a taste we believe should be kept pure.

The Clarity Kettle provides peace of mind through thoughtful features like auto shut-off, a stay-cool handle, easy-to-read measurement markings, and a soft-open lid. The cordless Kettle is easily moved between counter and table, whether you're making hot chocolate on a cold day or enjoying some afternoon tea with friends.

CORDLESS KETTLE

Kettle is cord-free when removed from the 360° swivel base and has an insulated bottom to protect your table

BOROSILICATE GLASS

Kettle is BPA-free and made with borosilicate glass for thermal shock protection and a pure, clean taste

LARGE CAPACITY

Kettle boils up to 1.75 L of water faster than the microwave and safer than the stovetop

ILLUMINATED LED POWER SWITCH

Light illuminates when Kettle is on

STAY-COOL HANDLE

Non-slip, comfortable handle provides a secure grip and remains cool to the touch

SOFT-OPEN LID

Lid opens slowly to control the release of steam and prevent hot water splatter

MEASUREMENT MARKINGS

Convenient ounce and milliliter markings allow for precise measuring

AUTOMATIC SAFETY SHUT-OFF

Kettle automatically turns off when water has reached a rolling boil

REMOVABLE FILTER

Reusable, perforated stainless steel filter strains water while you pour and is removable for easy cleaning

CONVENIENT STORAGE

Cord wraps neatly around the base for compact, tidy storage

4-SLICE MOTORIZED TOASTER

MOTORIZED ELEVATOR

Toast quietly and gently lowers or rises with the push of a button

TAKE-A-PEEK CAPABILITY

Pause to check progress at any time; either remove and enjoy or resume toasting

INTUITIVE DIGITAL CONTROLS

Customize your toast with 9 darkness settings, plus bagel, defrost and "a little extra" functions

Toast, as you like it.

Everybody's definition of "perfect" toast is a little different. Some like it dark, some light, and others somewhere in between.

The OXO 4-Slice Motorized Toaster has nine digital settings, allowing everyone to find their perfect shade. Want more control? The LED countdown shows exactly how much time is left, but our take-a-peek feature lets you check in on the toasting progress mid-cycle; the "a little extra" function will give you extra toasting if you want it.

Defining "perfect" toast is up to you; delivering it is up to us!

MOTORIZED ELEVATOR

Quiet motor gently lowers and raises bread — no more flying toast!

INTUITIVE LED INTERFACES

Backlit, easy-to-read interface helps you customize your toast

UP & DOWN BUTTONS

Raise and lower toast, or take a peek to check progress without stopping or restarting the toasting cycle

LED COUNTDOWN DISPLAY

Progress indicator lets you know how much of the toasting cycle remains

BAGEL FUNCTION

Toast only one side of the bagel, leaving the other side soft and warm

DEFROST FUNCTION

Thaw frozen bread and bagels before toasting

"A LITTLE EXTRA" FUNCTION

Add 30 seconds to the cycle if your toast is not quite dark enough, or if it cools off before you can enjoy it

LAST SETTING MEMORY

Your last setting will be the first thing your toaster suggests to speed things along

WIDE SLOTS

Generous, self-centering slots accommodate a variety of bread and bagel thicknesses

DEEP CRUMB TRAY

Removable trays catch crumbs and seeds, and are accessible from the front for easy emptying

FINGERPRINT FREE

Sleek, stainless steel body resists fingerprints

ACTIVATED CARBON SYSTEM

PROLONGS THE LIFE OF PRODUCE
— WASTE LESS • SAVE MORE —

PROBLEM

Fruits and vegetables give off ethylene gas. Exposing produce to ethylene gas speeds up the ripening process, causing it to over-ripen and go bad.

When produce rests against the walls of containers, bags or crispers, moisture can build up and cause rotting.

Too much moisture can cause fruits and vegetables to rot, but too little causes wilting.

SOLUTION

Safe, non-toxic, activated carbon filter absorbs the ethylene gas, slowing down the aging process and keeping produce fresh longer.

The elevated basket keeps produce away from the walls to promote airflow and helps prevent rotting.

The sliding vent allows you to regulate humidity levels to keep produce crisp and fresh.

25% OF THE FRUITS & VEGETABLES WE BUY ARE **THROWN AWAY!**

2014 USDA Study

ABSORBS ETHYLENE GAS

Carbon filters are filled with nooks and crannies that trap and absorb ethylene gas, slowing down spoilage and keeping fruits and vegetables fresh longer. They are made from coconut husks, making them safe, all-natural, and non-toxic!

CRISPER INSERT

PROMOTES AIRFLOW

The elevated basket lifts produce up and away from the bottom and sides of the container to prevent rotting, and can be removed to be used as a colander.

PRODUCE KEEPERS

CONTROLS HUMIDITY

The vent on top of each Produce Keeper slides open and closed to maintain optimum humidity levels for different types of produce, keeping them crisp and fresh.
